

Sustainable Commodities and Landscapes Forum

Amsterdam | 3-4 November 2026

NATURE AS BUSINESS STRATEGY • SUPPLY CHAINS THAT DELIVER • FARMERS FIRST
REGENERATING LANDSCAPES • CROSS-COMMODITY INSIGHTS

The conference

This leading business conference brings together 200+ supply chain and sustainability professionals to address the greatest risks - and opportunities - in commodity supply chains. With a focus on cross-commodity learning through real case-studies and interactive formats, we'll assess how to drive climate and nature-resilience throughout the entire value chain.

Key themes

Resilience and security of supply

What is a resilient, future-proof sourcing strategy in today's uncertain landscape? We'll assess leading company approaches.

Nature and biodiversity risk

How nature risk is impacting supply chains right now. What does the underlying data tell us and how can business integrate this into decision making for more robust, resilient supply?

Climate competitiveness

Climate risk is business risk. We'll assess the concrete mitigation and adaptation actions that business can take in the short, medium and long-term. Move from commitments to real word impact.

Smallholder livelihoods

Resilience must be shared throughout the value chain. We'll explore the practical ways to move beyond just due diligence to delivering on local priorities.

Agenda highlights

Day 1 | Risk, resilience and regeneration

- **Climate, market and geopolitical turmoil:** How leading businesses are adapting sourcing strategies
- **Nature and biodiversity risk:** What the latest data means for supply chains and production
- **(De)regulation watch:** How the compliance landscape is translating to social, financial and legal risk
- **Regenerative landscapes:** How to integrate climate and nature targets into one commercial strategy

Day 2 | Aligning priorities and resources

- **Policy alignment:** How linking business strategy to national climate roadmaps can accelerate the shift to net zero
- **From policy to procurement:** How to embed climate risk into purchasing decisions and supplier relationships
- **Financial risk:** How to align sustainability and finance to drive real decisions and real resources
- **Sustainability beyond silos:** Can the landscapes approach really catalyze cross-sector collaboration?

What's different about this forum?

INNOVATION FORUM IS:

- ✓ **Candid:** Entirely off-the-record discussion that enables open and honest disclosure from speakers and genuine participation from the audience
- ✓ **Practical:** A clear focus on the practical and actionable guidance that can drive change throughout industries and supply chains
- ✓ **Focused:** We provide enough time, resources and expertise to the issues that really matter. We don't skate the surface, but get to the crux of the issues to provide in-depth, constructive discussion

INNOVATION FORUM IS **NOT**:

- ✗ **A PR platform:** Enthusiastic speakers are NOT given free rein to fill a session presenting their companies, allowing no time to actually get to the crux of the issues
- ✗ **A talking shop:** This is NOT an opportunity for a group of people in a room to simply agree with everything said, regardless of outcomes
- ✗ **All promise, no delivery:** We will NOT promise what we can't deliver. The issues covered are complex. They won't be solved at a two-day conference. But we will help deliver progress through in-depth, constructive and practical advice around specific issues

Testimonials

"The collective intellect, experience and dedication to frank discussion about authentic change has inspired me enormously."

"Enjoyed the content, great speakers, and good conversations in between. Big thanks to Innovation for hosting such a great event."

"As ever, Innovation Forum challenges us to think and explore our knowledge of key issues in sustainability across the food supply chain, at a well-considered event."

"Congratulations on an interesting and well-rounded discussions! I often don't follow all the sessions, but it was clearly the case this time."

"It was great to part of the sessions – and so good that there were no ppt's for company advertisements! Great to have some actual discussion."

Sponsorship opportunities

Our flagship event, recently described as “the best conference on landscape approaches” by IDH’s global director of landscapes, has been a fixture in our audience’s diaries for the past six years. It has become the platform for companies to share, and validate, their strategies and announcements. This two-day business conference addresses the critical sustainability challenges - and opportunities - in commodity supply chains.

Promote a discussion that aligns with your values, sustainability credentials and leadership position

Engage a highly relevant audience of stakeholders around your sustainability programmes and initiatives

Boost awareness of your programmes through extensive exposure in the months around the conference

Support and drive progress in understanding your land footprint, managing risk and creating positive impact

EXHIBITION AND SOLUTION ZONE

The forum will showcase the leading innovations and solutions that assist business in creating sustainable agricultural and commodity supply chains. These solutions will be positioned in the very heart of the networking area. Exhibitors will make the most of prominent exposure over 6+ hours of dedicated networking time, creating long lasting connections with 350+ decision makers all pre-qualified with specific sustainability challenges in your field.

STAKEHOLDER ENGAGEMENT AND COMMUNICATIONS

Around the forum, we'll be continuing the conversation through sponsored workshops, roundtables and webinars. Created bespoke, these discussions are designed to strengthen dialogue and build relationships with key stakeholders. These engagement opportunities allow business to utilise IF's reputation and network to ensure key insights into policies, programs and initiatives.
